

RDX Announces COLLABORATE 14 Exhibition

PITTSBURGH – February 25, 2014 – RDX is proud to announce that it will be exhibiting at COLLABORATE 14 from April 7-11 at the Venetian and Sands Expo Center in Las Vegas, Nevada. Co-presented by the Independent Oracle Users Group (IOUG), the Oracle Applications Users Group (OAUG), and the Quest International Users Group, COLLABORATE was designed to help Oracle users maximize their Oracle product investments. As an exhibitor, RDX will be featuring its Oracle and Oracle EBS services and educating attendees about the benefits of remote database administration.

COLLABORATE 14 is expected to draw 5500 attendees who seek to gain insight into the latest Oracle technologies, network with their peers, and meet representatives from the Oracle Corporation. With over 1200 presentations, workshops, and training events developed by Oracle users themselves, COLLABORATE is able to offer attendees a wide variety of session topics and help attendees become more effective Oracle users. For more information, please visit <http://collaborate.oaug.org>.

Conference attendees can find RDX at Booth 835 during exhibitor showcase hours to learn how the organization can help them optimize operations within their Oracle environments. With hundreds of Oracle and Oracle EBS customers globally, RDX offers a wide range of Oracle and Oracle EBS remote database administration services to clients. In addition, RDX offers supplemental support, so that organizations can fulfill their growing requirements without the high costs of hiring additional in-house resources. To learn more about RDX's remote database administration solutions, please visit <http://www.rdx.com/solutions/by-technology>.

About RDX [Remote DBA Experts]

RDX provides 100% US-based, 24X7 support for Oracle, Oracle EBS SQL Server, DB2, RDB and MYSQL databases as well as operating system support for all major UNIX and Linux offerings. Since its inception in 1994, RDX has helped hundreds of companies lower support costs while increasing performance and availability.

RDX's highest priority is to safeguard its customers' sensitive data stores, and its expert staff of highly-trained professionals is backed by a monitoring and support infrastructure that has been continuously improved and enhanced throughout its 20 year history. Recently, RDX achieved its third SSAE 16 Type II with zero audit exceptions and received its final PCI Attestation documentation in October of 2013.
